- Southern Hemisphere Auroral Radar Experiment, 123-124
- SPATE, A.P. (with BURGESS, J.S. & SHEVLIN, J.) 491-495
- South Shetland Islands,
Handy Atlas No. 3, 60
- southern Victoria Land,
Conchostraca from Carapace Nunatak, 105-113
- squid,
albatross diet, 155-162
allozyme differentiation of ommastrephids, 201-204
bias in growth measurement, 179-184
contribution to the biology of squid in Prydz Bay, 223-229
diet of emperor penguins, 241-247
distribution, 235-239
eledonine octopods from the Southern Ocean, 205-214
embryonic development at low temperatures, 139-142
food and feeding, 185-193
from Terra Nova Bay, 283
growth, age structure and environmental history, 259-267
in diet of cetaceans, 149-154
in plankton of Prydz Bay, 171-173
Kondakovia longimana Filippova, 1972, 231-234
lipid composition of early life stages, 235-239
Parledone species from South Georgia, 163-169
predation by penguins, 269-274
problems associated with ageing from statoliths, 215-222
relative growth of paralarvae and juveniles, 275-282
reproductive-somatic relationships in *Loligo gahi*, 175-178
South African chokka, 249-258
special issue symposium summary, 137
- STATHAM, J.A. (with McMEKIN, T.A.) 333-338
